EXPERIENCE

Impleo Solutions Luxembourg , Remote — *Full Stack Developer*

October 2024 - Present

Design, build, and maintain full-stack features for an interim workforce management application using Java, Spring Boot, Thymeleaf, JSP, and MySQL.

Royal Fox , Remote — *Mobile Developer*

February 2023 - September 2023

Worked on an educational mobile application. My role was to develop new features, solve bugs, research future implementations of new features and fix issues in cooperation with another developer.

yadada , Remote — *Frontend Developer*

January 2022 - December 2022

Worked on multiple projects, the biggest one being loplo.com.
My role was to do the full frontend part of the app using the newest technologies like React.js, Next.js, Firebase, Tailwind CSS & Typescript.

EDUCATION

Singidunum University, Belgrade — *Bachelor studies*

October 2023 - Present

Major in Software and Data engineering

Tehnička Škola Stara Pazova, Stara Pazova — *High school degree*

September 2017 - June 2021

CAD Technician - Graduated with grade 4

PROJECTS (More on my website)

Autoscout24 clone (Github repo) — *Next.js, Typescript & Django*

AutoScout24 Clone is a car marketplace featuring advanced vehicle search with filters, multi-image listings, favorites, dealer accounts, and admin dash.
